

# #DOLGEVILLE CONNECTED

## We are a Connected School!

### What does that mean?

**Being a Connected  
School is an  
amazing resource  
for the students  
and staff!**

There are four main components to  
your connected school:

- Link
- Connected HUBs
- Classroom Programming
- Family Engagement Activities

## Link

We work to connect families with resources in their community! If you need to be linked with insurance, primary care, mental health support, housing assistance, SNAP, or any other community resources we can help!

## HUBS

Your Connected Hubs are located both in the elementary and highschool sides of the school building! We have snacks, hygiene products, groceries, school supplies, sunblock, and clothing available at no cost! If you need something, let us know, and we will try and find it!

## Classroom Programming

We love to provide our students with opportunities to learn through a variety of engaging activities with our community partners and experts. Some examples are healthy eating lessons (Cornell), safety presentations (bike rodeo), and social emotional learning.

## Family Engagement Activities

We strive to provide FREE events for local families to enjoy together including movie nights, crafts, games, holiday activities, and much more! If you have an idea please let us know, and we will try to make it happen!
